

**FIBRE OPTIC  
COMMUNICATIONS**

## **Fibre Optic Communications (FOC) Limited**

### ***Vision***

To retain the trust of our customers by supplying high quality products and services at competitive prices in a timely manner. To promote our values to the market place and constantly improve the range and quality of our offering. To add significant value to UK Manufacturing.

### ***Mission***

FOC will respond in a timely manner to all enquiries with a competitive, high quality offering. We will accommodate our customers' requirements to the best of our ability and ensure that our products and services are delivered as required. Our products and services will be, at all times, of the highest quality. We will constantly research better and more effective ways of fulfilling our customers' needs.

### ***Profile***

Fibre Optic Communications was formed in 1991 and has become a major supplier to the Fibre Optics industry. The company was restructured in 2001 to accommodate the downturn in the telecommunications market and take advantage of the shift in emphasis from infrastructure to desktop.

FOC's major market is fast turn-around, bespoke fibre optical, copper and co-axial solutions for end-users and installers. Customers include Government, Defence Contractors, Local Authorities and Public Utilities as well as installers and all types of end-user.

Our product range includes; fibre optic patch leads, raw fibre and pre-terminated multi-core fibre, patch panels and assemblies, connectors and adapters, tools and components; copper and co-axial patch leads and assemblies, bespoke copper and coax assemblies, patch panels, connectors, tools and components and racks and cabinets. We also provide a consultancy service for customers who need advice in all aspects of fibre optic, copper and co-axial communications as well as on-site installation and termination services to complete the offering.

We maintain an up-to-date knowledge of the market place and are constantly researching new and innovative ways to meet the needs of our customers - always respecting the requirement for quality and value.

Our aim is to complete 80% of requirements within 48 hours of receiving an order. We maintain the ability to fulfil all requirements, however obscure, with a solution which is both competitive in price and of measurable quality.

FOC's overall aim is to deliver quality and value to complement our customers' business objectives.
